

OTAN Teaching Tools and Resources

OTAN has a number of teaching tools and resources that adult education teachers can utilize in their instruction. Here are some resources that you should consider throughout the school year (click on the **Resources** Menu on the top of the **OTAN.us** website):

[Curriculum Offers](#) are free or reduced-cost special offers for online curriculum licenses and professional development resources that OTAN has negotiated on behalf of the state. The curriculum offers cover ESL, ABE, ASE, and HSE program areas.

[California Adult Education Courses](#) are listed on our hosted and supported Moodle learning management system (LMS) site. OTAN has developed and procured a number of courses which are offered to WIOA-funded adult ed agencies which can be administered and adapted to meet the needs of learners. An educator can also request an empty course shell to build their own online course.

[Teaching with Technology](#) is a resource that teachers can use to locate lesson plan topics and ideas that integrate specific websites and other tech tools.

[Web-Based Class Activities](#) are technology-based activities organized around instructional themes or topics and edtech tools, with ideas on how to get started and how to use in the classroom.

Please let us know if you have any questions about these teaching tools and resources. We look forward to providing you additional resources throughout the school year!
